

WHY SBTU AERONAUTICAL ENGINEERING ?

SBTU is a university with a bright future that sets big goals for itself, offers great opportunities to its graduates, and thinks big and takes steps in this direction.

IMPORTANT COLLABORATIONS

- » Our Aeronautical Engineering Department will offer to our students who have high achievements at the end of their first 2 years education, get the opportunity to work as an intern engineer at TAI in their 3rd and 4th grades.
- » Thus, our students will receive on-site practical training directly from the expert personnel at TAI.
- » Within the scope of the Contemporary 7+1 Applied Education Model, the last half-year (term) before graduation, will be given to all our students in the form of practical training at the workplace at TAI.
- » Thus, our graduates will be offered the opportunity to receive training from TAI engineers and to prove themselves in TAI.

SBTU IN LOCAL AND NATIONAL MEDIA

If you want to increase your chance to work when you graduate, you can choose us.

WITH THE DEFENSE INDUSTRY

STRONG COOPERATION

- » SBTU is one of the rare universities in our country that specializes in the field of defense and aims to train competent engineers in this field and clearly sets out its goals.
- » In this direction, bilateral cooperation agreements have been signed with the leading organizations of our country in the field of defense.
- » With the advantage of being newly-established, our entire education curriculum has been prepared in line with the needs of our country's leading defense organizations by exchanging ideas.
- » With the advantage of being newly established, the infrastructure of all our laboratories is established by exchanging ideas with the leading defense organizations of our country.
- » Our graduates will take the necessary applied and theoretical courses in the fields needed by our country's defense industry organizations, and will be "required engineers" in these organizations.
